PROFILE

I am a web developer with over 5 years of experience, specializing in .NET technologies. My core expertise includes C#, ASP.NET Core, and ASP.NET MVC, with a strong focus on building scalable and high-performance web applications. I also have hands-on experience with Microsoft Azure services, including App Services, Azure Functions, and Azure DevOps, which I leverage to develop, deploy, and manage cloud-based applications.

SKILLS

C#	.NET Core
Azure Services	MSSQL, PostgreSQL

EDUCATION

Web Design and Development (POST GRAD)　　　　　　　　　　　Sep 2018 - Dec 2019
Conestoga College, Kitchener
GPA: 3.93/4

Bechlor's in Computer Science and Engineering　　　　　　　　Aug 2013 - May 2017
Rajasthan Technical university, Rajasthan, India
Honours Degree

EMPLOYMENT

Senior Software Developer　　　　　　　　　　　　　　　　　Jul 2024 - Present
GHD Digital, Waterloo, Canada

- Design, develop, and maintain scalable and efficient SaaS applications using .NET Core, C#, and SurveyJS, focusing on delivering high-quality user experiences.
- Implement and optimize workflow automation using Elsa Workflows, ensuring seamless integration with the SaaS product.
- Develop, deploy, and manage applications in Azure, leveraging services like App Services, and Functions to ensure scalability and reliability.
- Design and manage databases and storages, including Azure SQL, PostgreSQL, and Blob Storage, emphasizing performance and scalability.
- Develop and maintain secure, scalable RESTful APIs to support integration with front-end applications

and third-party services.
- Ensure robust authentication and authorization mechanisms using standards like OAuth, Managed Identity.

.NET Developer   Apr 2020 - Jun 2024
GHD Digital, Waterloo, Canada

- Worked in an Agile Environment using tools like JIRA and GIT version control to develop projects.
- Worked with ASP.NET C# for back-end tasks and JavaScript, and jQuery for front-end tasks.
- Worked with .NET Core and Vue.js for Single Page Application (SPA).
- Used XSLT code to generate HTML from XML data.
- Used MSSQL with Entity Framework for doing database-related operations.
- Worked with a great team to make secured websites that pass all accessibility checks and WCAG guidelines.

Junior ASP.NET Developer   Jun 2017 - Jun 2018
RK Websoft Technology Pvt. Ltd., Gujarat, India

- Used Agile methodology to build all web applications.
- Worked with a team of IT professionals to develop proprietary, secure Web-applications.
- Worked with ASP.NET (MVC) for writing back-end code, AngularJs to write front-end code, and LINQ to write database queries.
- Used Entity Framework, Code First Migration, PMC (Package Manager Console Commands) to perform all database-related tasks.

CERTIFICATION

- Microsoft Azure Fundamentals (AZ-900) certificate
- Microsoft Azure Developer Associate (AZ-204) certificate
- Participation certificate of Hackathon India 2017
